Beneath the fun and functional design lies a complete aluminum structure featuring a full fiberglass, vacuum-bonded exterior, and one-piece roofing. Solid block insulation and large tank capacities make HOST RV's your perfect year round adventure vehicle.

## A LEGACY OF QUALITY

From the 1960's to the 1990's, Beaver Coach founders Jim Hogue and Frank Storch took their company to the forefront of the RV industry. Their legacy of quality was passed to HOST RV through their sons—Dave Hogue and Mark Storch.

In 2000, Dave and Mark were empowered by what they learned from the masters to create a company dedicated to making your outdoor experience more enjoyable, comfortable and convenient. HOST RV's are built with you in mind and include features and comforts you won't find anywhere else in the industry.
